MEMORANDUM FOR: Director of Central Intelligence

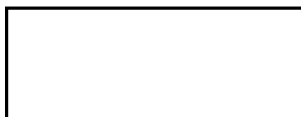

FROM: John N. McMahon
Acting Deputy to the DCI for the
Intelligence Community

SUBJECT: SI/TK Clearances for [] Personnel

25X1

1. SI/TK clearances are requested for the following named []
[] who are assigned to work under an existing contract with
the IC Staff:

25X1

25X1

2. These clearances are essential to the work of planning and implementing a Community Information Handling System, as called for by Congressional committees.

3. The Community's ADP and Telecommunications systems are used to store, manipulate and distribute SI/TK materials in large volume along with all other types of intelligence. We cannot accomplish Community-wide planning and implementation of coordinated, inter-connected systems unless our contractor personnel can have access to these compartments. There is no substitute for contractor personnel to accomplish these tasks, because the planning and reorganization of a [] business cannot be accomplished solely by government personnel.

25X1

4. Two people are the minimum required to carry on the contract work. This contractor is likely to be engaged on this project for the next two years.
